Mrs. Stonebarger

Thank you for your time, patience, and professionalism. The tools knowledge and resources that you bring to a client are invaluable as they go beyond the case, the courtroom and common sense with the methods of communication that you use to interpret the information.

The approach taken by Analytic Investigations and Deborah Stonebarger has allowed my case to be viewed from a scientific standpoint that balanced the playing field with the interpretation and presentation of evidence attributed to my case as well as evidence that was not appropriately applied by investigators, crime lab personnel, medical examiners, and the State's prosecution. This is what "empowering our clients with knowledge" is all about.

Analytic Investigations is guilty as (charged) advertised. Their services allowed me the opportunity to explore many avenues and aspects of my case that were unavailable before their knowledge, skill set, and resources were utilized. The power to present a level playing field for trial presentation, the leverage for plea negotiations, and even the potential to exclude, exonerate, or prevent wrongful convictions is all in the knowledge and information available to the client provided by Analytic Investigations.

Forever grateful for their services, it changed the course of my life in the justice system. From being over-charged in criminal

matter of facing the death penalty as an accused "Narco-Terrorist", to dismissed charges, properly assessed charge and a fair plea bargain that reflects my actual level of responsibility and accountability which is all I can ask for.

I will defiantly utilize their services in my pending criminal cases of the same accusations in other states and jurisdictions, as their skill sets are transferrable anywhere there is an unbalanced playing field in the criminal justice system. -

John Anthony Cole, Maricopa Co., PHX AZ

charged 1st° premeditated murder

reduced: 2nd° homicide

Kidnapping

dismissed

pending: Federal/Several States

Several Homicides, Large Scale Drug Trafficking, Federal Racketeer Conspiracy
